Guidelines for Wholesale Pricing

1. Quantities & pricing can be negotiable, depending on size of order.
2. We require at least 50% deposit up front for supplies & materials. The remaining balance is due upon delivery.
3. We offer products at a wholesale price when orders contain 100 pieces or more (unless otherwise noted). We are also limiting our fragrances to 10 scents per order. This helps us keep our cost down for you to be able to buy from us since the fragrances are the most expensive ingredient of each product.
4. If you would like your label (private label) on the products, we charge \$0.25 extra on each individual piece in the order. (For example, 100 candles would cost \$25 extra to have your own label.)
5. We provide a one-time contract for each order, detailing the products, fragrances, production time, any deadlines, delivery, & agreement between seller (us) & buyer (you).
6. We will also provide an invoice/receipt upon final delivery and payment for your records.
